EDUCATION

Parul University, Vadodara, Gujarat
B-Tech in CSE - AI & ML

2023 - 2027
8.42/10 CGPA - 4th Semester

EXPERIENCE

CodexFusion

Sep 2025 – Present

Senior Core Member

- Mentored juniors in data structures, algorithms, web technologies, and coding interview problems.
- Organized coding sessions and collaborated with peers on LeetCode challenges and web projects.
- Contributed to fostering a collaborative coding culture through workshops and peer learning activities.

PROJECTS

Matra AI

[Github](#)

- AI-based maternal health system with real-time tracking, personalized recommendations, and multilingual support.
- Implemented secure data handling, offline access, and remote doctor connectivity.

Tech Stack: Python, Flask, React, OpenAI API, HTML, CSS, JavaScript.

Audio to ISL Converter

[Github](#)

- Python app converting spoken English to Indian Sign Language animations for accessibility.
- Integrated real-time speech recognition and ISL mapping.

Tech Stack: Python, SpeechRecognition, NumPy.

Text Summarizer ML Project

[Github](#)

- Python-based machine learning project for automatic text summarization using transformer models.
- Supports batch summarization and provides example usage scripts.

Tech Stack: Python, PyTorch, Hugging Face Transformers, NLTK/ SpaCy (for text preprocessing), Flask (optional for API).

TECHNICAL SKILLS

Languages

C, Python, Java, HTML, CSS, JavaScript

Databases

MySQL, MongoDB

Computer Science Basics

DSA, OOPS, DBMS, OS

Tools & Libraries

VS Code, GitHub, PyCharm, Cursor AI

Python Libraries

Numpy, Pandas, Matplotlib, Seaborn

Currently Learning

Machine Learning (in progress), Deep Learning (planned)

ACHIEVEMENTS

- Recognized among the top 3 percent of students in the department for outstanding academic performance.
- Secured 3rd rank in state during Intermediate Public Examination.
- Participated in 4+ hackathons as a finalist.

CERTIFICATIONS

NPTEL Online Certification
